Three Lives Lost.

Salina Springs, Tex., May 8.—Only four buildings are standing today in the little town of Birthright, Tex., as a result of the tornado which swept through the northern portion of this state. As far as can be ascertained only three persons lost their lives and several were seriously injured.

A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over-work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver complaint," or torpid liver, by its wonderful control over the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system of poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

Symptoms. If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, or biliousness, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver, or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Of Golden Seal root, which is one of the prominent ingredients of "Golden Medical Discovery," Dr. Roberts Bartholow, of Jefferson Medical College, says: "Very useful as a stomachic (stomach) tonic and in atonic dyspepsia." Cures gastric (stomach) catarrh and headaches accompanying same." Dr. Grover Coe, of New York, says: "Hydrastis (Golden Seal root) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases, cutaneous eruptions, indigestion, debility, chronic diarrhea, constipation, also in several affections peculiar to women, and in all chronic derangements of the liver, also for chronic inflammation of bladder, for which Dr. Coe says "it is one of the most reliable agents of cure."

Prof. John King, M. D., late of Cincinnati, author of the AMERICAN DISPENSATORY, gives it a prominent place among medicinal agents, reiterates all the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means the blood is enriched, *** the consequent improvement on the glandular and nervous systems are natural results." Dr. Scudder further says, "in relation to its general effect upon the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states * * *."

MUTINY ON A VESSEL.

Chinese and Russians Fight Aboard a British Ship.

San Diego, Cal., May 8.—With 921 Chinese steerage passengers at war with 212 Russian steerage passengers, all on their way from Vladivostok and Shanghai to Mazatlan and Guaymas, the British steamer Maori King put in here in distress. A state of mutiny exists on board the vessel and the ship is now at quarantine under guard of immigration custom officials while awaiting settlement of the matter.

Captain Duncan sighted the pier at Coronado and thought he could land there but got into shoal waters. The sea was calm but the tide was falling and the first report was that he was aground. He finally entered the harbor.

Trouble began soon after the steamer left Shanghai between the Chinese and Le Sun Lai, an immigration contractor, and the steerage passengers threatened to run the ship back to China. The dispute was quieted but trouble broke out again when a Boxer stabbed a coolie. On Friday last one of the Russians struck a Chinaman and laid his head open. The 900 Chinese then attacked the 200 Russians and before they could be separated fourteen persons were wounded.

Captain Duncan, aided by British Consul Hitchcock, hopes to get a guard on board to help him the rest of the trip.

FOUR TRAINMEN KILLED.

Seven Other Persons Injured in a Collision.

Wheeling, W. Va., May 8.—Four trainmen were killed, four others injured and three passengers were hurt when eastbound freight train No. 96 on the Baltimore and Ohio railroad met train No. 7, the New York and Chicago express, at Rosby's Rock, twenty miles east of here. The dead are:

Chris T. Weber, Shady Side, O., baggage-master of No. 7; W. T. Thonent, McMachen, W. Va., fireman on No. 7; J. L. Painter, Baltimore, express messenger on No. 7; H. A. Christy, Bridgeport, O., fireman on No. 96.

Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of Golden Seal root: "It is a most superior remedy in catarrhal gastritis (inflammation of the stomach), chronic constipation, general debility, in convalescence from protracted fevers, in prostrating night-sweats. It is an important remedy in disorders of the womb." (This agent, Golden Seal root, is an important ingredient of Dr. Pierce's Favorite Prescription for woman's weaknesses, as well as of the "Golden Medical Discovery.") Dr. Ellingwood continues, "in all catarrhal conditions it is useful."

Much more, did space permit, could be quoted from prominent authorities as to the wonderful curative properties possessed by Golden Seal root.

We want to assure the reader that "Golden Medical Discovery" can be relied upon to do all that is claimed for Golden Seal root in the cure of all the various diseases as set forth in the above brief extracts, for its most prominent and important ingredient is Golden Seal root. This agent is, however, strongly reinforced, and its curative action greatly enhanced by the addition, in just the right proportion of Queen's root, Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure glycerine. All of these are happily and harmoniously blended into a most perfect pharmaceutical compound, now favorably known throughout most of the civilized countries of the world. Bear in mind that each and every ingredient entering into the "Discovery" has received the endorsement of the leading medical men of our land, who extol each article named above in the highest terms. What other medicine put up for sale through druggists can show any such professional endorsement? For dyspepsia, liver troubles, all chronic catarrhal affections of whatever name or nature, lingering coughs, bronchial, throat and lung affections, the "Discovery" can be relied upon as a sovereign remedy.

A little book of extracts treating of all the several ingredients entering into Dr. Pierce's medicines, being extracts from standard medical works, of the different schools of practice will be mailed free to any one asking (by postal card or letter), for the same, addressed to Dr. R. V. Pierce, Buffalo, N. Y., and giving the writer's full post-office address plainly written.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

"It's an ill wind that blows nobody good"

This time it is blowing for your benefit

Not in the history of the weather bureau have we had such cold spring weather and its effect is shown on every kind of trade. We have felt it in our ready-to-wear section very preceptibly—so much so that garments such as usually sell during the warm days of April, are still left here, BUT THEY MUST NOW GO. We have selected such as we have too many of and now you will get the good of the cold winds which have, in this instance, blown in your favor. There are about three dozen coats in the lot which will sell as follows:

BANDITS ARE CAUGHT

Those Who Held Up a Train in Montana Are Arrested.

SAID TO BE MERE YOUTHS

They Held Up the Northern Pacific North Coast Limited Passenger Train and Killed the Engineer and Wounded the Fireman.

Helena, Mont., May 8.—A dispatch to Sheriff Shoemaker here says that the train robbers of the North Coast limited have been arrested at Basin, a few miles from Woodville, where they caught the train. They are mere youths.

Butte, Mont., May 8.—Wounded by five bullets fired by two hold-up men, Engineer James Clow of the North Coast limited on the Northern Pacific road with one last heroic effort probably saved the lives of hundreds of passengers by turning on the air brakes and preventing an appalling wreck. Then he died.

The North Coast limited, eastbound, was held up by two masked men near Welch's Spur, a siding eighteen miles east of Butte.

Engineer James Clow was shot and killed and Fireman James Sullivan was shot through the arm.

Without making an attempt to blow the express car, as evidently was intended, the robbers jumped from the engine and ran down the mountain side, disappearing in a gulch several hundred yards from the track.

William Powers, aged thirty-four, who says he came here last week from Sand Point, Ida., was arrested near Woodville by a sheriff's posse, suspected of being one of the hold-up men. He said he meant to board a train at Woodville and beat his way out of the country. He denied all knowledge of the murder and hold-up at Welch's, but he was sent to Butte by the sheriff.

Officers Took the Trail.

Sheriff Henderson of Butte was notified of the crime and with a posse left by train for the scene of the hold-up. Sheriff Webb of Yellowstone county was on the North Coast limited, and with one of the train crew started on the trail of the hold-up men fifty minutes after the shooting. He trailed the men half a mile and after picking up their masks lost all trace of the bandits.

On the tender of the locomotive was found a telescope grip full of giant powder, evidently intended for use in blowing up the express car.

The men boarded the train presumably at the Butte Transfer, where a locomotive for the Montana division was attached. One mile west of Welch the men crawled over the tender.

One of the robbers fired, shooting Engineer Clow through the body, killing him almost instantly. The other man shot at Sullivan, breaking his arm. When the train stopped Conductor Bert Culver and the train crew ran to the engine, where the found Will-

iam Crawford, nineteen years old, who says he was riding on the second car at the time of the shooting. He is under arrest. From him has been secured a description of the men who did the murder, tallying with the wounded fireman's statement of the case. Crawford says he was not a party to the original scheme, and that he refused to join the bandits when they asked him to do so. He had boarded the train at Butte.

THAW HOME MORTGAGED.

Extraordinary Efforts Made to Keep Transaction Secret.

Pittsburg, May 8.—"Lyndhurst," the pretentious home of Mrs. William Thaw in the East End section of this city, has been mortgaged for \$100,000, according to the Pittsburg Leader. The mortgage was secured some time ago, the book containing the record has been hidden according to this newspaper and information concerning the document has just become public. The interest charged is 5½ per cent and the mortgage is held by the Fidelity Title and Trust company. It will mature in three years.

The paper was drawn in New York city on March 7, 1907, and was witnessed by Attorney Clifford W. Hart-ridge of Harry Thaw's counsel, and John P. Heagher, a notary, who did the necessary work of witnessing and putting the seal of the commonwealth upon the document.

The mortgage, except for its length and the importance of the principals to its inception, is of the ordinary kind.

Extraordinary efforts were made to keep the mortgage secret.

More News From the New England States

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr. Alvin H. Stimpson, of Williamantic, Conn., who, after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. H. P. Dunn & Co. mwfwd

BOTH FATALLY WOUNDED.

Prominent Mexicans Fight a Duel Over a Girl.

Pueblo, Mex., May 8.—Lauro Jandere, millionaire owner of several haciendas, and Jose Maria Beltran, municipal director of Tlatanguito, both aspirants for the hand of the daughter of a prominent planter of this district, fought a duel with pistols in the streets in which both were mortally wounded. Both men fell badly wounded at the first fire. In their recumbent positions they continued firing until each had received mortal wounds.

Rumored Bonaparte May Resign.

Washington, May 8.—A report circulated here that Attorney General Bonaparte is to retire from the cabinet cannot be verified. The attorney general himself asserted that the report that he would retire on account of ill health is unfounded and that it is his purpose to remain in the cabinet so long as the president desires him to do so. Persons close to President Roosevelt discredit the report.

ACTRESS COMMITS SUICIDE

Worry Over Divorce Troubles Held to Have Been Responsible.

New York, May 8.—Worry over divorce troubles is believed to have been responsible for the suicide of Muriel Nelson, an actress, violinist and music writer, who shot and killed herself at her apartments in the Hotel Bennington.

Miss Nelson, as she was called, was well known among stage folks both in this country and England, of which

she was a native. She was at one time the wife of James Stewart Laird, who is well known throughout Europe as an educator. She appeared in many plays in this country.

For Wallace Widdicombe, whom Miss Nelson married and who lives at the Longacre hotel, she left a note in which she complains of severe headaches brought on by her divorce troubles. In a note she asked that many of her musical works be published.

A physician said there were divorce proceedings between Miss Nelson and Mr. Widdicombe.

LENROOT WITHDRAWS.

Superior Man Out of Wisconsin Sena-
torial Contest.

Madison, Wis., May 8.—Irvine L.
Lenroot of Superior suddenly with-
drew from the senatorial race through
a letter addressed to the "Republican
legislative caucus." In spite of the
fact that Mr. Lenroot withdrew, how-
ever, most of his supporters continued
to vote for him on three ballots taken
after the announcement of his with-
drawal. Senator Hudnall went over
to Hatten and J. P. Peterson went over
to Stephenson. These were the only
defections.

In his letter Mr. Lenroot says he
hopes for the election of a senator who
will represent "the progressive wing
of the party," and believes his with-
drawal will be in the interest of such
an outcome. He leaves his supporters
free to distribute themselves among
whatever camps they see fit.

MAY 3rd DRAWING

ESDON ETCHINGS

Mrs. O. H. Markell, Gail, Harold and
the baby left for Argyle, Minn., last
Monday where they expect to stay a
couple of weeks before leaving for Bow
Bells, Dakota, where they will spend
the summer, leaving for Rush Lake,
Canada, in the fall, to make that place
their home. Mrs. Markell has been
visiting her parents, Mr. and Mrs. L.
Hammett for the last two months.

Mrs. L. A. Chord was removed to her
home from her daughter's, Mrs. L. E.
Garrison's, the last of the week. She is
able to be up around the house at pres-
ent, although still suffering from her
fall.

Mrs. R. J. Maghan, Maggie and the
baby came across in their boat last
week for a visit on this side of the lake.
It makes it seem a little more like
summer to see the boats out.

Mrs. B. P. Chord just arrived from
Manitoba where she has spent the
winter. She is very glad to get back to
Minnesota again as she does not like
Canada at all. She has gone to J.
Ruttger's, where she is to help care for
the summer boarders this summer.

Melissa Chord has gone back to Brainerd
after a week's stay in Esdon.

Con Isles made his weekly trip to
Esdon Sunday, bringing a friend with
him.

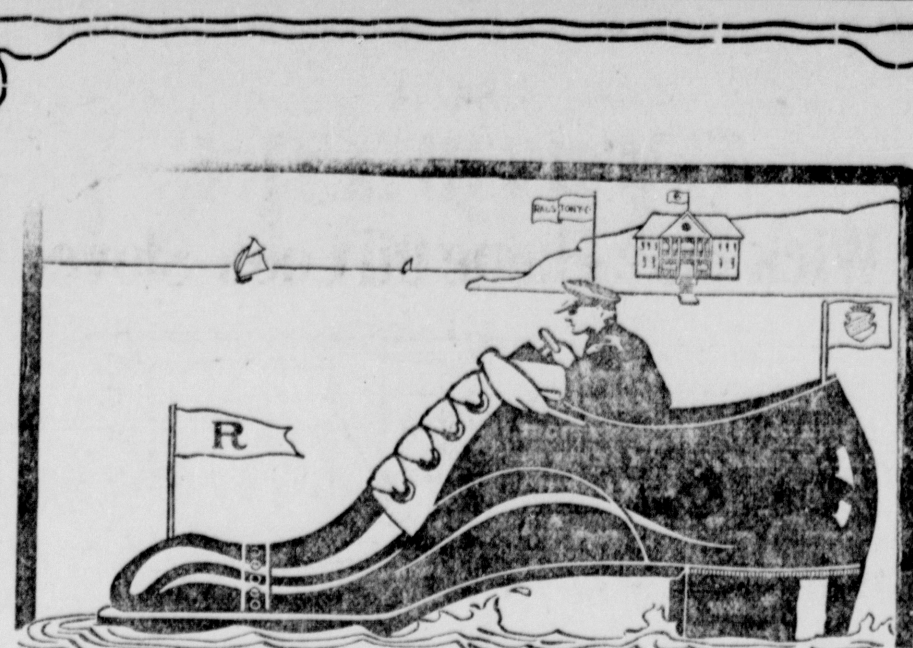

L. E. Garrison made a short visit at
home the last of the week to visit that
new daughter that arrived a week ago.

Mrs. A. Gergan is enjoying a visit
from her mother, three sisters and a
brother from Wisconsin.

Sam Hammett has purchased the
Waldrop place that was formerly owned
by Ben Chord.

There's Lots of Go in the RALSTON

You have heard so much about the COMFORT
which is to be found in a RALSTON HEALTH
SHOE that perhaps you think that we've made
STYLE a secondary consideration. That's not so—
and to prove it we would like to have you look over
our Spring line of RALSTONS. You'll find all
the snap and go that good taste allows.

That's not all, either—the unique construction
of their lasts which are "true to nature" models of
the soles of your feet give you "sole fit" as well as
upper fit and this not only means comfort but it
means also that your shoes will retain their
shape and wear longer because they FIT PER-
FECTLY from the first.

WILL OF JAMES H. SMITH

Disposes of an Estate Valued at About
Twenty-five Million Dollars.

New York, May 8.—The will of
James Henry Smith was made public
in this city. The value of the estate
is estimated at not more than \$25,000,
600.

All his near kin receive legacies and
there are bequests to two local hos-
pitals. The will provides for a direct
bequest, but of this it is said there is not
a remote possibility.

His nephews, George Grant Mason
and William Smith, Mason, are the
principal beneficiaries of the estate,
receiving two-thirds one-third, respec-
tively, of the residue.

George Grant Mason was until re-
cently division superintendent of the
Chicago, Milwaukee and St. Paul rail-
road. William Smith Mason is a bank
official at Evanston, Ill. The will, it is
understood, will be offered for probate
at Goshen, Orange county.

Mr. Smith died at Kyoto, Japan, on
March 26, while he and Mrs. Smith
were on their bridal tour. The body
was brought to this city. The funeral

was held at St. Bartholomew's church
and interment was made at Woodlawn.
The will gives to his wife, Annie
Armstrong Smith, in lieu of dower,
the sum of \$3,000,000, to be taken by
her either in cash or securities.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell
and completely derange the whole system when
entering it through the mucous surfaces. Such
articles should never be used, except on prescrip-
tions from reputable physicians, as the damage
they will do is ten fold to the good you can pos-
sibly derive from them. Hall's Catarrh Cure,
manufactured by F. J. Cheney & Co., Toledo, O.,
contains no mercury, and is taken internally,
acting directly upon the blood and mucous sur-
faces of the system. In buying Hall's Catarrh
Cure be sure you get the genuine. It is taken
internally and made in Toledo, Ohio, by F. J.

RUN OVER BY HORSE AND BUGGY

Young Son of Mr. and Mrs. Hall
Injured on Front Street Last
Evening

THE DRIVERS WERE CARELESS

This is the Claim Made by the
Parents of the Youngster Who
Was Injured

Oscar Hall was injured on Front street Tuesday evening by being run over by a horse and buggy on Front last evening. He was running across the street to reach the street sprinkler which his father was driving, and was struck by a horse driven by two young men whose names could not be learned. The horse's breast struck the boy in the head, knocking him down. The entire rig passed over him, bruising him badly. He was picked up and carried to the home of his parents, in the Cale block and a doctor summoned. The most serious injury proved to be a sprained or bruised ankle. It is thought the youngster will be confined to the house for some days.

CHANGE IN GAME LAWS

Recent Legislature Made Some Vital
Changes in the State Fish and
Game Regulations

The state legislature which recently adjourned made several changes in the laws regarding fishing and hunting. Among them the following are those of especial interest to this section:

The warden may arrest in future without a warrant any person who violates any of the state game laws.

A light may be used for the spearing of coarse fish during only ten months of the year, not twelve as heretofore. During the months of May and June the use of lights is forbidden. This law is put in force in order that the bass may be protected during their spawning months.

The new season for mink and muskrat is from Nov. 15th to the April 15th following.

For information leading to the arrest and conviction of any violator of the moose and caribou law a reward of \$50 will be paid; a violation of the deer law a reward of \$25, and for the violation of the other game and fish laws a reward of \$10 will be paid.

AN ARTIFICIAL CONDITION

Congressman Lindbergh Discusses Rail-
roads and Gives His Views on
Rates, Etc.

In the current issue of the Alexandria Post-News Hon. C. A. Lindbergh, member of congress from this district, is interviewed and the following will be of interest to his constituents in this section:

Of the different matters receiving consideration by the federal government the one that has consumed the most thought lately is transportation. The Panama canal is not forgotten, but the real fashionable thing is to hammer the railways. Of course they deserve pounding into consistency but there is a great deal of pounding because it's the present fashion of politics.

The railroads are the arteries through which our trade relations extend to all parts of the country. In the past they have been extended and adjusted to the will of individual men and syndicates. The selfish interest of these produced a condition that was and still is inconsistent with the reasonable demands of the common people. Therefore a wave of discontent has grown up. It requires a lot of adjustment to meet this wave of vigorous public opinion and to fit it with new acts. The railway managements required some pretty vigorous examples before they really understood that they had to adjust and they are complaining a good deal about overlegislation and making it appear that it is likely to bring about a reaction in business. That is a sort of fencing process in which they justify for it is necessary to be reasonable. They see a tendency in some places to be unreasonable.

The railways have had at least ten years of immense prosperity. We have all been working for them—paying their officers big salaries, their stockholders good dividends and all the time making betterments out of profits. We have seen many of their stocks increase in value several hundred per cent. Naturally we all began to think there was too much in it when we saw such figures of prosperity in that one special interest over the same period without seeing nearly an average proportionate increase in the wages of the rank and file of the employees and without seeing something like the same prosperity coming to the farmers, country merchant and factories. We knew the railways, so far as charges made and in many cases so far as the services rendered, were out of harmony with the country people.

The railway managements did not, of their own motion, undertake to adjust to the natural condition of things. The people simply had to make the forward movement. The people must, in order to get the full advantage of this movement, be fairly conservative. The railways now understand the temper of the people and in some measure are meeting the demands voluntarily but the cycle of railway adjustment to this new line of thought is only commenced. It will be one of the principal, if not the overshadowing, consideration for several years. The most difficult question in all this adjustment and legislation, and it has been scarcely mentioned yet, is to so adjust the rates that the larger cities shall have no artificial advantages over the smaller cities and country districts. To go into the detail of this would take too much of your space but one thing you can state safely and that is that the condition that makes St. Paul and Minneapolis 125 times larger than Alexandria is not a natural but an artificial adjustment of railway rates to selfish ends that injures your farmers, your merchants and your small factories and all of you, and when fully analyzed can be shown to be of no benefit to the common people of the great cities as well.

According to Verndale Sun Brainerd
Capitalists Want Water Power and
Mill Near That Village

According to a statement in the Verndale Sun a Brainerd banker and two other Brainerd capitalists are or have been negotiating for the water power on the Wing river near that village. They are also desirous of securing the flouring mill and would improve the water power and supply the city with electricity for lighting purposes. According to the Verndale paper there was little prospect of they and the owner of the water power getting together on the price of the property.

REFUSED LICENSE

Application of P. E. McCabe for Saloon
License Near Deerwood Rejected by
County Commissioners

When the application of P. E. McCabe for a saloon license on ground adjoining the village of Deerwood came up for consideration at the meeting of the county commissioners Tuesday H. J. Hage and C. H. Adams, of Deerwood presented a remonstrance containing 85 names. It is said that only three voters in the community refused to sign this paper. It and the arguments of Messrs. Hage and Adams were effective and the commissioners refused to grant Mr. McCabe the desired license.

The Missouri Girl, which was produced at the opera house last night, was way above the average of the popular priced plays put on here this season. The play is wholesome and the humor spontaneous and bright. The audience, which was about average in size, seemed to appreciate the play and applause was frequent and enthusiastic.

HIDDEN DANGERS.

Nature Gives Timely Warnings That
No Brainerd Citizen Can Afford
To Ignore.

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys secrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Brainerd proof:

Philip O'Neal, of 516 Norwood St., Brainerd, Minn., says: "Brainerd people have seen in the local papers the testimony I gave in 1890 recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidneys were too frequent and much disordered. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Reception Pleases Kuroki, Chicago, May 8.—General Kuroki and staff, accompanied by General McArthur, arrived in Chicago and left for Washington over the Pennsylvania road. The train was several hours late and the reception arranged for the Japanese general at the Auditorium hotel had to be abandoned. General Kuroki said he was pleased with the reception he had received in America.

Pale, Weak, Anaemic Girls.

ANAEMIA or bloodlessness is indicated by paleness of the lips, the gums and eyelids, and is most frequently found in girls and young women. Other symptoms are deficient appetite, impaired digestion, irritable temper, shortness of breath, dizziness, fainting, headache, easily fatigued, depression and dependency. The blood is lacking in the life sustaining power which is necessary to the proper working of the bodily organs, and can only be restored by the use of such a blood-forming preparation as Dr. A. W. Chase's Nerve Pills.

On account of the way in which Dr. A. W. Chase's Nerve Pills enrich the blood and build up the system, they are beyond doubt the most effective treatment for anaemia and similar wasting disease that was ever compounded. Note your increase in weight while using it. Dr. A. W. Chase's Nerve Pills, 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of Dr. A. W. SENDS STRONGER NOTE.

Mexico Calls on Guatemala to Deliver General Lima.

Mexico City, May 8.—According to the state department the Guatemalan question remains unchanged. Minister of Foreign Affairs Mariscal denied emphatically that diplomatic relations between the two countries had been broken off or that the preliminaries for such a contingency had been planned.

Mexico has sent another and a stronger note to Guatemala insisting upon the delivery of General Jose Lima, accused of instigating the murder of General Manuel Lisandro Barrillas, and also insisting upon the sending of Colonel Onofre Bone as a witness in the Barrillas murder case.

Many Villages Inundated.

Kremenchug, Russia, May 8.—The high water on the Dnieper has inundated no less than 180 villages. Dwellings, stores of grain and cattle have been swept away by the flood. The people of this town are in flight. The prison has been inundated and it was with difficulty that the prisoners were removed to Poltava.

Mrs. S. Joyce, 180 Sullivan St., Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Cure. It cured me of a severe case of Kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it." H. P. Dunn & Co. mwfdw

BIG LOTTERY FIND.

Tickets Issued by a German Concern Located in Cincinnati.

Cincinnati, May 8.—One of the greatest lottery finds ever uncovered in America was made by the Cincinnati police department through the efforts of Detectives Crim and Kuhfers. Richard Berger, a saloonist at 1309 Central avenue, was arrested charged with selling lottery tickets. His case was continued.

The detectives found between 300,000 and 500,000 tickets issued by a German lottery with correspondence in German concerning the distribution of the same.

MYSTERIOUS ASSAULT.

Cleveland Woman Shot by a Unknown Man.

Cleveland, May 8.—Mrs. Concetta Mondella, thirty-six years old, wife of a city employe, was mysteriously assaulted by a would-be assassin and fatally wounded while leaving her home on Cherry street, to visit neighbors. She had taken her child in her arms and had reached the street when a man stole up behind her and shot her through the head. The woman fell to the pavement unconscious and is reported dying. There were few people on the street at the time, and only a meager description was obtained of the man who fired the shot.

WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

Medical examiners of insurance companies say that the reason a woman pays more the privilege of insurance than a man, is from the fact that women readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness, and the many other symptoms of indigestion soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles, nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known and is really one of the valuable discoveries in modern medical science.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

To escape this condition of ill health, to enjoy one's food and yet never suffer from indigestion, a person should use Mi-o-na stomach tablets. They are not a mere digestive tablet, but strengthen and restore to natural action the stomach and bowels and effect a complete cure in even the worst form of stomach troubles.

H. P. Dunn & Co. sell Mi-o-na in 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it. wtf3
